

Graphene Markets, Technologies and Opportunities 2014-2024

ResearchMoz include new market research report" Graphene Markets, Technologies and Opportunities 2014-2024: Industry Analysis, Size, Share, Growth, Trends And Forecast" to its huge collection of research reports.

View Full Report With Complete TOC at <http://www.researchmoz.us/graphene-markets-technologies-and-opportunities-2014-2024-report.html>

Table of Contents

1. EXECUTIVE SUMMARY

- 1.1. Ideal graphene vis-a-vis reality
- 1.2. Attributes of graphene manufacturing techniques
- 1.3. The state of the industry and best way going forward
- 1.4. Markets overview and forecasts
- 1.5. Players

2. INTRODUCTION

- 2.1. What is graphene?
- 2.2. Why is graphene so great?

3. THERE ARE MANY TYPES OF GRAPHENE

4. COST-EFFECTIVE AND SCALABLE MANUFACTURING TECHNIQUE IS THE HOLY GRAIL

5. THE STATE OF INVESTMENT, PRODUCTION AND REVENUE IN THE GRAPHENE MARKET

6. MOVING UP THE VALUE CHAIN IS CRITICAL

- 6.1. Who will be the winner in the graphene space?

7. THE IP ACTIVITY IS MOVING FROM THE MANUFACTURING SIDE TO COVER END USES

8. REDUCED GRAPHENE OXIDE

- 8.1. Manufacturing details- process, material set, scalability, cost, quality, etc

8.2. Reduction methods

8.3. Assessment and market view

8.4. Companies

8.5. Pros and cons

9. CHEMICAL VAPOUR DEPOSITION

9.1. Manufacturing details- process, material set, scalability, cost, quality, etc

9.2. Transfer

9.3. Latest developments

9.4. Substrate-less CVD

9.5. Assessment and market view

9.6. Companies

9.7. Pros and cons

10. LIQUID PHASE EXFOLIATION

10.1. Manufacturing details- process, material set, scalability, cost, quality, etc

10.2. Assessment and market view

10.3. Companies

10.4. Pros and cons

11. PLASMA

11.1. Manufacturing details- process, material set, scalability, cost, quality, etc

11.1.1. Plasma Approach I

11.1.2. Plasma Approach

II 11.2. Assessment and market view

11.3. Companies

11.4. Pros and cons

12. A GENERAL MARKET OVERVIEW

12.1. Graphene markets- target markets, go-to-market strategy, the interplay between manufacturing technique and application, etc

12.2. Assessment for graphene target markets

12.3. Application/product development lifecycle per market segment

13. GRAPHENE CONDUCTIVE INKS

13.1. Which applications/market segments will benefit?

13.2. Assessment

13.3. Conclusion

14. TRANSISTORS AND LOGIC

14.1. Graphene- is it good for transistors?

14.1.1. Digital applications

14.1.2. Analogue/RF electronics

14.1.3. Large area electronics- a comparison with other thin film transistor technologies

14.2. Conclusions

15. GRAPHENE IN POLYMERIC COMPOSITES

15.1. Graphene/polymeric composites

15.2. How does graphene enhance the performance of polymers and composites?

15.3. Which applications/market segments will benefit from graphene-enabled polymers/composites?

15.4. Our assessment

15.5. Conclusions

16. GRAPHENE- LI ION BATTERIES

16.1. Is there an added value or performance enhancement?

16.2. Does graphene add value or improve performance in lithium ion batteries?

17. GRAPHENE- TRANSPARENT CONDUCTIVE FILM

17.1. Market for transparent conductive films

17.2. Emerging ITO alternatives

17.3. Suppliers of ITO alternatives

17.4. Graphene as an ITO alternative

17.5. Current uses of graphene

17.5.2. Future trends and market drives

17.6. Graphene does offer flexibility- is that a differentiator?

17.7. Conclusions 18. GRAPHENE -SUPERCAPACITOR

18.1. Supercapacitors- technology and markets

18.2. Existing supercapacitor electrode materials by company

18.3. Is there an added value or performance enhancement?

18.4. Assessment

18.5. Conclusions

19. GRAPHENE INKS IN RFID TAGS

19.1. The big picture - number of tags, classifications, price tags

19.2. What are the material options for RFID tags and how do they compare?

19.3. Does graphene deliver a value in this crowded market?

19.4. Market shares

19.5. Other graphene uses

19.5.1. Condom

19.5.2. Water purification

20. SUMMARY - FORECASTS AND ASSESSMENT

21. COMPANY INTERVIEWS

21.1. Anderlab Technologies, India

21.2. Angstrom Materials, USA

21.3. Bluestone Global Tech, USA

21.4. Cabot, USA

- 21.5. Canatu, Finland
- 21.6. Cheaptubes, USA
- 21.7. CrayoNano, Norway
- 21.8. Durham Graphene Science, UK
- 21.9. Grafen Chemical Industries, Turkey
- 21.10. Graphenano, Spain
- 21.11. Graphene Frontiers, USA
- 21.12. Graphene Industries, UK
- 21.13. Graphene Laboratories, USA
- 21.14. Graphene Square, Korea
- 21.15. Graphene Technologies, USA
- 21.16. Graphenea, Spain
- 21.17. Group NanoXplore, Canada
- 21.18. Grupo Antolin Ingenieria, Spain
- 21.19. Haydale, UK
- 21.20. Incubation Alliance, Japan
- 21.21. Nanoinnova, Spain
- 21.22. Showa Denko, Japan
- 21.23. Sony, Japan
- 21.24. Thomas Swan, UK
- 21.25. University of Cambridge, UK
- 21.26. University of Exeter, UK
- 21.27. Vorbeck, USA
- 21.28. XG Sciences, USA
- 21.29. XinNano Materials, Taiwan

21.30. Xolve, USA

22. COMPANY PROFILES

22.1. Abalonyx, Norway

22.2. Airbus, France

22.3. Aixtron, Germany

22.4. AMO GmbH, Germany

22.5. Asbury Carbon, USA

22.6. AZ Electronics, Luxembourg

22.7. BASF, Germany

22.8. Cambridge Graphene Centre, UK

22.9. Cambridge Graphene Platform, UK

22.10. Carben Semicon Ltd, Russia 2

2.11. Carbon Solutions, Inc., USA

22.12. Catalyx Nanotech Inc. (CNI), USA

22.13. CRANN, Ireland

22.14. Georgia Tech Research Institute (GTRI), USA

22.15. Grafoid, Canada

22.16. GRAnPH Nanotech, Spain

22.17. Graphene Devices, USA

22.18. Graphene NanoChem, UK

22.19. Graphensic AB, Sweden

22.20. Harbin Mulan Foreign Economic and Trade Company, China

22.21. HDPlas, USA

22.22. Head, Austria

22.23. HRL Laboratories, USA

- 22.24. IBM, USA
- 22.25. iTrix, Japan
- 22.26. Lockheed Martin, USA
- 22.27. Massachusetts Institute of Technology (MIT), USA
- 22.28. Max Planck Institute for Solid State Research, Germany
- 22.29. Momentive, USA
- 22.30. Nanostructured & Amorphous Materials, Inc., USA
- 22.31. Nokia, Finland
- 22.32. Pennsylvania State University, USA
- 22.33. Power Booster, China
- 22.34. Quantum Materials Corp, India
- 22.35. Rensselaer Polytechnic Institute (RPI), USA
- 22.36. Rice University, USA
- 22.37. Rutgers - The State University of New Jersey, USA
- 22.38. Samsung Electronics, Korea
- 22.39. Samsung Techwin, Korea
- 22.40. SolanPV, USA
- 22.41. Spirit Aerosystems, USA
- 22.42. Sungkyunkwan University Advanced Institute of Nano Technology (SAINT), Korea
- 22.43. Texas Instruments, USA
- 22.44. Thales, France
- 22.45. University of California Los Angeles, (UCLA), USA
- 22.46. University of Manchester, UK
- 22.47. University of Princeton, USA
- 22.48. University of Southern California (USC), USA

22.49. University of Texas at Austin, USA

22.50. University of Wisconsin-Madison, USA IDTECHEX RESEARCH REPORTS AND CONSULTANCY

About ResearchMoz

ResearchMoz is the one stop online destination to find and buy market research reports & Industry Analysis. We fulfill all your research needs spanning across industry verticals with our huge collection of market research reports. We provide our services to all sizes of organizations and across all industry verticals and markets. Our Research Coordinators have in-depth knowledge of reports as well as publishers and will assist you in making an informed decision by giving you unbiased and deep insights on which reports will satisfy your needs at the best price.
